

Enquiry Form:

GLASS IMAGES ON KITCHEN SPLASHBACKS

Thank you for your enquiry. ICON-GLASS specialise in the production of glass panels using a unique glass Imaging system. All of our splashbacks are manufactured from toughened glass for increased strength and safety performance. This form has been created to help guide you through specifying your new ICON-GLASS design. Please check our 'specifying Artwork' document on our website for information on how to achieve a bespoke image. If you require assistance with images or designs please contact us directly and tick the 'Design service required' box below.
